- ▲ hospital
- ▲ medical office

IDP-1002

Ink-Document-Printer

- ▲ Safety-ink, Infrared readable, according ICAO-standards
- ▲ Frontside in- and output of the documents
- ▲ Auto alignment system for documents
- ▲ Safe, sensor-controlled document handling
- ▲ Separate ink cartridges with large volume (C/M/Y/B)
- ▲ Exchangeable printheads
- ▲ High print quality (up to 1200 dpi color)
- ▲ Print speed (up to 36ppm draft mode)
- ▲ Flatbed-technology „Made in Germany“
- ▲ Development in production in Germany

The KOMDRUCK *IDP-1002* printer will continue the success story of the worldwide first flatbed-inkjet printer KOMDRUCK *IDP*. The KOMDRUCK *IDP-1002* set standards with its on-site flatbed-technology. The printer features a single sheet paper feed and auto alignment system for the documents.

With its single sheet paper feed the printer is able to handle a range of documents and forms up to smallest formats (50 mm(B) x 80 mm(H)), tp print safe, exactly and user-friendly. Additionally, the *IDP-1002* has a sensor-supervised pathway that monitors and aligns documents automatically before printing.

This innovative technology avoids printing errors about "not straight" documents so it saves the operator unnecessary costs.

The KOMDRUCK *IDP-1002* is a high-performance multi document printer that realizes printouts in professional photo quality, provides high user friendliness and advanced paper handling. Print of texts in laser quality and speed (up to 12ppm). Normal mode up to 16 ppm, draft mode up to 36 ppm.

With InkJET technology and our permanent ink enable to print on documents forgery proof on/or to personalize with picture and/or biometric data. Furthermore the black ink in combinations with the KOMDRUCK *IDP-1002* is machine (infrared) readable according to ICAO-standards.

The KOMDRUCK *IDP-1002* is the ideal printer for provisional documents, visa and passports.
